

Thank you for purchasing our nail moisturizer 'kaina'

'kaina' is a full-fledged nail moisturizer for sustaining healthy nails. It was created based on a wealth of knowledge and experience of bajanail, a nail salon specializing in nail care, trying to improve nail problems over two decades.

In our efforts to create 'kaina' with various contrivances, we focused especially on the ease of use, fragrance and readiness to moisturize at all times.

No matter how great a product you have, it won't mean anything unless you can properly use it. We believe that having the nail product which you can use easily, sustainably, every day and anywhere is the first step for the proper moisturizing method.

'Kaina' day cream (orange color) is a nail moisturizer for the daytime, including office work hours when the skin tends to lose its natural oils. Before and after PC operations while treating paper documents, if you put a cream on your fingers, these will inevitably be sticky, and you will end up neglecting to moisturize them. However, with being this container shape and creamy texture, 'kaina' day cream can be used without hesitation. (Additionally, 'kaina' night gel cream can also be used during the day.) In regard to scent, please enjoy the natural fragrance of various plants' essential oil, centering on Yuzu (species of aromatic Asiatic citron).

Also, please use 'kaina' night gel cream to thoroughly moisturize while relaxing at home before going to bed. In winter, many people use 'kaina' night gel cream during daytime. The plant-derived ingredients are used for 'kaina'

as main components. You can use 'kaina' without wasting cream with the narrow opening tube, which is double-processed for quality preservation. Moisturizing your nails can improve your state of mind naturally. Furthermore, your bright smile can make everyone happy. We created 'kaina' to value such feelings. Please use 'kaina' for your daily life. We will support your active days that begin with your healthy nails.

The nail moisturizer 'kaina' has the plant-derived ingredients as main components

No Artificial Colors

Paraben-Free

No synthetic fragrances

Non silicone polymer

Non mineral-oil-based /petroleum-based surfactant

Natural aromatic essences are used, focusing on domestic Yuzu (aromatic citron) which is known to have a relaxing effect. Among a number of essential oils, we had been paying attention to Yuzu, a citrus fruit with the world-class fragrance peculiar to Japan since ancient times. With the main focus on Yuzu, the natural healing fragrance of 'kaina' is made from blends of Rosemary, Geranium, Cypress (Italian cypress). The scent of 'kaina' will make you relaxed. Once you start using 'kaina', you won't be able to go back to using anything else. Please enjoy such scent along with moisturizing effects.

Things to be aware of when using 'kaina'

Q: How long is the expiration date?

A: The expiration date is printed on a package and container. Once you open 'kaina', please use it within approximately 3 months.

Q: Is the phototoxicity of citrus essential oils safe?

A: The furocoumarin, the phototoxicity causing substance, is not included in the essential oils we used.

Q: Is it safe to use 'kaina' during pregnancy?

A: The amount of essential oils we used is very small and there is no problem though, please use 'kaina' according to your physical condition.
